

WILLIAMSBURGH

HOUSING ASSOCIATION LTD

KEY INFORMATION

Brief History & Performance

Williamsburgh Housing Association is registered under the Co-operative and Community Benefit Societies Act 2014, is a Scottish Registered Charity (SC035350) and registered with the Financial Conduct Authority (FCA) (1991RS) and a Registered Social Landlord (RSL) with the Scottish Housing Regulator (HAL207) in accordance with the Housing (Scotland) Act 2001. Our services are provided for the benefit of our tenants and other customers.

Williamsburgh was founded in 1979 to regenerate the sub-standard tenement housing that existed in the east end of Paisley at that time. This was achieved through a programme of comprehensive tenemental improvement (CTI) work and was so successful that it was then expanded to improve other areas of Paisley.

In addition to our historical CTI work, Williamsburgh has also delivered a number of new build development projects which grew our stock numbers to their current level of just under 1,700. We also extended our areas of operation out-with Paisley, to include communities in Johnstone, Renfrew and Kilbarchan.

Mainly as a result of the CTI programme, we provide factoring services to over 500 properties within our tenements to ensure they are kept to a high standard of repair and to protect the historic public investment in the properties through both social housing and owner's improvement grants.

We have a strong history of driving regeneration forward within our communities and plan to invest further in this area as the social and economic benefits to be gained will enhance and assist the provision of our housing and maintenance services.

Performance

Williamsburgh compares favourably to the published Scottish average for RSL's as is evidenced by benchmarking our Annual Return on the Charter key performance indicators - see Williamsburgh Annual Report.

Our tenants and our customers

We carry out an independent survey of our tenants and factored owners every 3 years.

Feedback from our surveys is not only used to gauge satisfaction with our services but is also used to inform service improvements and our strategic objectives to take account of tenants and owners views.

We also measure satisfaction at the point of maintenance service delivery and collect information on complaints so that we can respond quickly to dissatisfaction with our services and consider whether our policies and processes need to change.
